*about*

# EMMA SAGE

Hi, I'm Emma. I'm an interior designer and project manager with experience leading residential renovations from concept through construction. My background in design and project management allows me to balance creativity with organization—translating ideas into thoughtful spaces while coordinating the people, materials, and details required to bring them to life.

# PROJECT 1

## *Kitchen Renovation*

The client's kitchen featured outdated cabinetry and a closed layout that separated the kitchen from the dining area. The design introduced a pass-through opening to improve flow while maintaining a traditional aesthetic. Two-tone cabinetry, quartz countertops, and layered lighting create a brighter, more functional space.

Scope: Kitchen Renovation

Role: Interior Designer | Project Manager

# Transformation

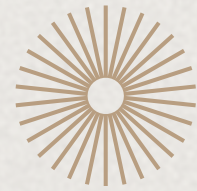

BEFORE

AFTER

Pass-through opening added to visually connect the kitchen and dining room.

Range relocated to improve circulation and accommodate the new pass-through opening.

*Lender*

# PROJECT 2

## *Bathroom Renovation*

This project transformed an outdated hallway bathroom into a contemporary, spa-inspired space designed for both daily functionality and long-term accessibility. The design balances clean modern materials with thoughtful storage solutions, a soaking tub, and an upgraded shower system to meet the clients' evolving needs.

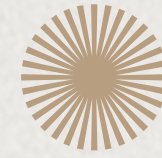

Scope: Bathroom Renovation

Role: Interior Designer | Project Manager

BEFORE

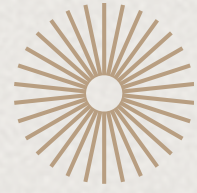

# Transformation

The redesign replaced dated fixtures with a soaking tub and modern shower system, creating a brighter and more functional bathroom layout.

AFTER

# PROJECT 3

## *Bathroom Renovation*

Renovation of an existing hallway bathroom and the creation of a new basement bathroom by transforming an unused laundry storage area. The project focused on maximizing functionality within tight footprints while introducing clean, modern finishes and thoughtful layouts for everyday use.

Scope: Bathroom Renovation

Role: Interior Designer | Project Manager

# *Transformation*

An underutilized basement laundry storage room was transformed into a full bathroom, carefully designed to work within the existing structure and limited ceiling clearance.

BEFORE

AFTER

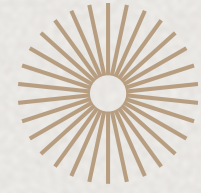

# Transformation

The upstairs hallway bathroom was refreshed with a more efficient layout and modern finishes, creating a brighter and more functional space.

# PROJECT 4

## *Kitchen Renovation*

This kitchen remodel addressed limited storage, poor lighting, and an inefficient layout by reconfiguring the appliance placement and expanding cabinetry. The new design introduces a brighter, modern palette with shaker cabinetry, quartz countertops, and a functional peninsula that improves workflow while maximizing counter space.

Scope: Kitchen Renovation

Role: Interior Designer | Project Manager

BEFORE

AFTER

# *Transformation*

Relocating the refrigerator and introducing a peninsula allowed for additional cabinetry, improved circulation, and significantly more usable counter space.

# PROJECT 5

## *Bathroom Renovation*

This master bathroom renovation focused on improving layout efficiency, storage, and overall comfort while updating the space with clean, modern finishes. The redesigned bathroom balances functionality and aesthetics, creating a more organized and relaxing environment for everyday use.

Scope: Bathroom Renovation

Role: Interior Designer | Project Manager

# *Transformation*

The renovation reworked the existing layout to improve circulation, increase storage, and introduce modern materials that brighten and elevate the space.
